

CHILD VACCINATION

Barcelona, 20 January 2026

Distrimédica, SL
San Cesareo, 9
28021 Madrid

Dear Mr. Gerardo González Conde,

Gavi, the Vaccine Alliance and the "la Caixa" Foundation wish to thank **DISTRIMÉDICA, SL** for its support for the Vaccines4Children initiative (formerly known as the **Child Vaccination Alliance**).

Together, we have managed to do something extraordinary this year: **over 13 million children have received vaccinations**. Each of them has gained access to more opportunities, better health and a brighter future, and knowing that you believe in us encourages us to keep working to make sure no child gets left behind.

How did we do it?

All the funds we receive from caring organisations like your own and the contribution from the "la Caixa" Foundation and the Gates Foundation—who are staying true to their promise to **quadruple each donation**—have enabled us to fund **100% of the pneumonia vaccination programmes in Mozambique** for 7 years running.

We're sending you a toolkit so that you can share and provide accreditation for the valuable work that your teams, collaborators and customers do. This includes:

- The corresponding tax certificate for the donation made
- Sponsor certificate
- Project information letter
- Partner badge
- Digital signature and banners for your social media.

Vaccines4Children also receives the support and collaboration of ISGlobal – Barcelona Institute for Global Health as a scientific and academic partner.

We're sure that together we can make a real impact: to give each child the greatest superpower in existence, [the superpower of survival](#).

Thank you for your commitment, generosity and participation.

Over 13 million
children now have the
superpower of survival
